

JM EQUIPMENT

Core Splitter

JME Core Splitter Benefits:

- Significantly reduces the space required to store spent cores
- Reduced the cost of storage or dumpster space
- Reduce the cost of disposal by shipping a more condensed load
- More user-friendly to recycling centers

JME CORE SPLITTER FEATURES:

- Vertical stand alone Core Splitter design takes up minimal space
- Virtually no noise or dust
- Cuts cores into 4 equal sections for easy stacking
- Simple to install and runs on 100 psi of plant air
- Low maintenance with heavy duty pneumatic cylinder design
- Safe to operate with complete enclosed guard/cage and safety lock-out
- Quick cycle time
- Affordable
- Hydraulic units also available
